

WALKING TRACKS REMAIN OPEN WHILE OTHER FACILITIES CLOSE

As a precautionary measure, WBR Parks & Recreation has closed its community centers and parks and suspended all programs and activities until further notice. However, we understand the importance of remaining active through exercise and the overall health benefits from it.

Therefore, the WBR Parks and Recreation Department will allow the walking tracks throughout the parish to remain available to the public. Please note, the exercise pads are also closed to avoid contact with bacteria from hands and sweat. The bathroom facilities will not be available either.

We strongly encourage the public to remain aware of others and keep safe social distances during the COVID-19 pandemic. Thank you for your cooperation.
